

## LETTER OF RECCOMENDATION

To Whomsoever it may concern,

**Rahul Kashyap** worked with ***Praesus Technologies*** as an intern for a period of three (3) months through the summer of 2020. In that time his primary focus was platform development using Flutter, and incorporating integral backend processes into the system, working in the domain of **mobile development and IoT**. He was able to execute his tasks well and coordinate properly with the team leads.

He is of good moral character, and is keenly interested in growing his skills. We can certainly say that he will be a great asset and a quick study in whatever employment situation he finds for himself in the future.

Thank you and regards,

Sayan Tapadar,

CTO,

Praesus Technologies Pvt. Ltd.
